

Deliverable 1

Product Requirements Document (PRD)

Product Name

ExpenseWise Mobile Expense Tracking App

1. Product Overview

ExpenseWise is a mobile application that helps users record, categorize, monitor, and analyze personal expenses.

The application aims to improve financial awareness and budgeting.

2. Goals & Objectives

Business Goals

- Increase user financial awareness
- Improve budgeting habits
- Reduce manual expense tracking

Product Goals

- Simple expense entry
 - Real-time expense visualization
 - Monthly spending analysis
-

3. User Personas

Persona 1: College Student

Name: Kartik

Age: 21

Goal: Track daily expenses

Pain Point: Runs out of monthly allowance

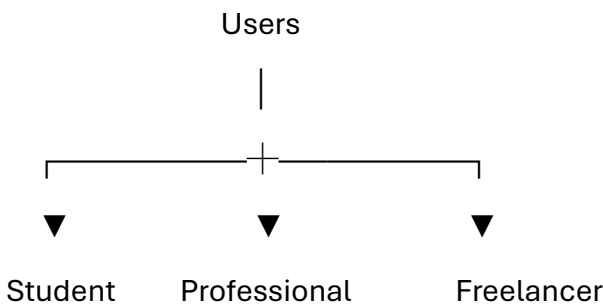

Persona 2: Working Professional

Name: Priya
Age: 29
Goal: Control monthly spending
Pain Point: No visibility into expenses

Persona 3: Freelancer

Name: Rohit
Age: 34
Goal: Separate personal and business expenses
Pain Point: Manual record keeping

Persona Diagram

4. Features List

Feature	Priority
User Registration/Login	P0
Add Expense	P0
Edit/Delete Expense	P0
Expense Categories	P0

Feature	Priority
Dashboard Summary	P0
Monthly Reports	P1
Budget Limits	P1
Search Expenses	P1
Export Reports	P2
Dark Mode	P2

5. User Stories with Acceptance Criteria

User Story 1

As a user, I want to register an account so that I can securely store expenses.

Acceptance Criteria

Given user is on registration page

When valid details are entered

Then account should be created

User Story 2

As a user, I want to log in so that I can access my expenses.

Acceptance Criteria

Given account exists

When valid credentials are entered

Then login succeeds

User Story 3

As a user, I want to add expenses so that I can track spending.

Acceptance Criteria

Given user is logged in

When expense details are submitted

Then expense is saved

User Story 4

As a user, I want to edit expenses so that I can correct mistakes.

Acceptance Criteria

Given expense exists

When user edits and saves

Then updated expense is stored

User Story 5

As a user, I want to delete expenses so that I can remove incorrect entries.

Acceptance Criteria

Given expense exists

When delete is confirmed

Then expense is removed

User Story 6

As a user, I want categories so that I know where money is spent.

Acceptance Criteria

Given expense form is open

When category is selected

Then expense is saved under that category

User Story 7

As a user, I want a dashboard so that I can see spending summaries.

Acceptance Criteria

Given expenses exist

When dashboard opens
Then spending summary is displayed

User Story 8

As a user, I want monthly reports so that I can analyze spending trends.

Acceptance Criteria

Given monthly expenses exist
When report is requested
Then monthly analysis is generated

User Story 9

As a user, I want budget limits so that I can avoid overspending.

Acceptance Criteria

Given budget is configured
When spending exceeds limit
Then warning notification appears

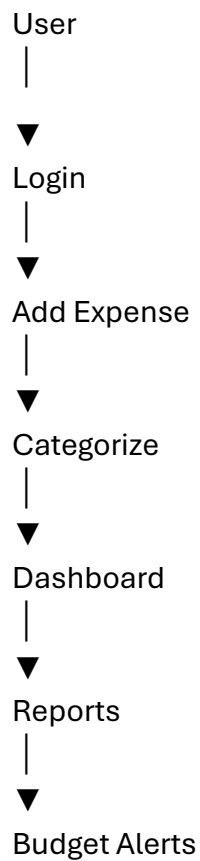

User Story 10

As a user, I want search functionality so that I can find old expenses quickly.

Acceptance Criteria

Given expense records exist
When keyword is entered
Then matching expenses appear

User Story Mapping Diagram

6. Functional Requirements

FR-1: System shall support user registration.

FR-2: System shall support login/logout.

FR-3: System shall allow expense creation.

FR-4: System shall allow expense editing.

FR-5: System shall allow expense deletion.

FR-6: System shall categorize expenses.

FR-7: System shall generate reports.

FR-8: System shall provide dashboard analytics.

FR-9: System shall support search.

FR-10: System shall provide budget alerts.

7. Non-Functional Requirements

- NFR-1: App response time < 2 seconds.
- NFR-2: 99.9% availability.
- NFR-3: Data encrypted in transit and storage.
- NFR-4: Support Android and iOS.
- NFR-5: Support 10,000 concurrent users.

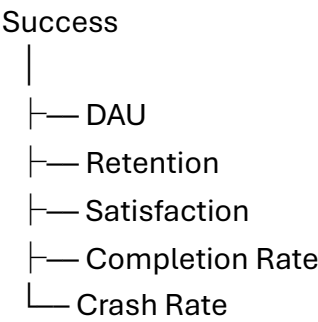

8. Out of Scope

- Investment tracking
- Cryptocurrency portfolio tracking
- Loan management
- Tax filing
- Banking integrations

9. Success Metrics

Metric	Target
User Registration Rate	80%
Daily Active Users	5,000+
Expense Entry Completion Rate	95%
Monthly Retention	70%
App Crash Rate	<1%
User Satisfaction Score	>4.5/5

Success Metrics Diagram

10. Timeline

Phase	Duration
Requirement Gathering	Week 1
UI/UX Design	Week 2-3
Development	Week 4-8
Testing	Week 9
UAT	Week 10
Release	Week 11

Deliverable 2

BRD vs PRD Comparison Note

Aspect	BRD	PRD
Full Form	Business Requirements Document	Product Requirements Document
Purpose	Defines business needs	Defines product features
Focus	Business objectives	User needs and product behavior
Owner	Business Analyst	Product Manager
Audience	Executives, Stakeholders	Designers, Developers, QA
Detail Level	High-level	Detailed
Created When	Before product planning	Before development
Output	Business requirements	Product specifications

When to Use BRD

- New business initiative
- Digital transformation project
- Process improvement project
- Stakeholder alignment phase

When to Use PRD

- Product design
- Software development
- Agile sprint planning
- Feature implementation

Document Relationship
